## SUMMARY

Passionate about front-end web development with a solid grasp of design principles and user experience, I am actively pursuing an entry-level front end developer role to elevate my skills and gain professional experience. My keen attention to detail and ability to thrive under pressure make me well-suited for dynamic work environments. Additionally, I am eager to contribute to a team-driven atmosphere, enhance my programming skills, and further develop my communication abilities. I am seeking a position that not only allows me to utilize my current strengths but also encourages continuous learning, enabling me to acquire new skills that will be invaluable for future career opportunities.

## SKILLS

**Languages :** HTML, CSS, JavaScript, TypeScript, SQL, PHP

**Technologies & Tools :** WordPress, Blogger, Git, Tailwind, ReactJS, Shadcn/UI, Laravel

## EDUCATION

<b>College of Information Technology &amp; Engineering - Tinkune, Kathmandu</b>	<b>2018 - 2022</b>
BCA - Purbanchal University	CGPA : 3.34
<b>BlueBird Higher Secondary School - Kumaripati, Lalitpur</b>	<b>2015 - 2017</b>
+2 - NEB	First Division

## PROJECT WORK

---

- **Movie Ticketing (2023)** : Designed and developed a Movie Ticketing web application using React, JavaScript, Tailwind CSS, Formik, and Yup. Successfully integrated API data to showcase movies in an appealing user interface. Implemented form validation using Formik and Yup for enhanced user experience. Demonstrates expertise in front-end development, emphasizing clean UI design and effective data integration for an engaging Movie Ticketing experience.
- **CinemaGo (2023)** : Created a React-based movie platform where users can explore a visually appealing movie catalog. Integrated Google Firebase for secure authentication, CSS for styling, and API calls for real-time movie data. Enhanced the user experience by implemented a 'favorite' feature for personalized interactions.
- **Inventory Management System (2022)** : Developed an Inventory Management System web app using PHP Laravel, HTML, Bootstrap, and MySQL. Created a user-friendly interface for easy inventory control. Leveraged Laravel for a robust backend and MySQL for efficient data handling. Implemented features like real-time stock tracking. Demonstrates proficiency in web development with a focus on practical, user-friendly solutions.
- **Bus Reservation System (2021)** : I led a dynamic team in crafting a seamless and efficient platform for managing bus reservations. This project involved the design and implementation of user-friendly interfaces using HTML and Bootstrap, while the backend functionality was powered by the PHP Laravel Framework, ensuring scalability, security, and maintainability.
